

## SITE FIX PEGASUS

Non-Metallic Retro Fit Cable Hanger  
Patent Pending

### NON-METALLIC RETRO-FIT CABLE HANGER

Site Fix Pegasus is a non-metallic cable hanger system specifically designed for retro-fit projects where the old hanger system has corroded away.

Due to its non-metallic design the cleat is impervious to 'bi-metallic corrosion' and suitable for use in the harshest of environments.

**Adjustable hanger position.**

**No risk of damaging cables on retro fit jobs.**

**Hanger shape accommodates various cables.**

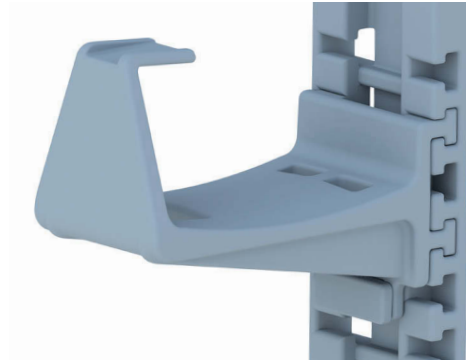

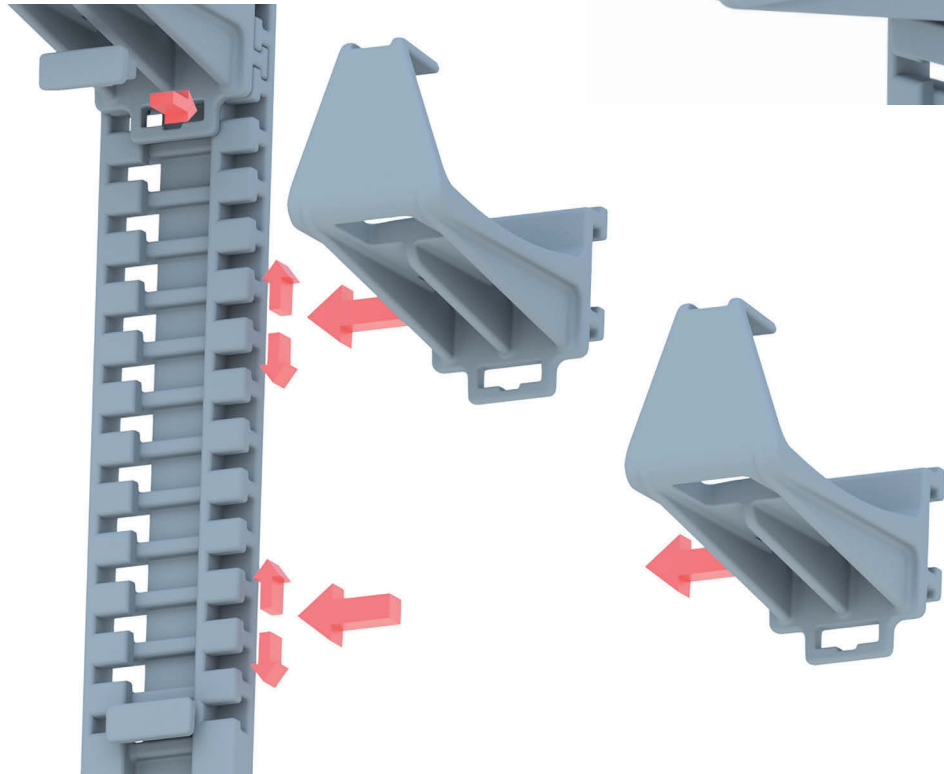

**Fast installation.**

# SITE FIX PEGASUS

The hangers slide into the backplate and are held in position by a removable keeper. The design allows for fine adjustment of the hanger position to suit the location of the installed cable.
