

The Company is committed to minimising its impact on the environment within the scope of its operations.

The Company will take action to:

- Prevent pollution.
- Reduce waste.
- Recycling where possible during production and at product end of life.

Ellis Patents Ltd operates a robust environmental system underpinned by its accreditation to the BS ISO14001:2015 standard and the company is fully committed to the compliance obligations raised from the risk based aspects and impacts system and legal register.

The environmental system will be achieved through:

- The maintenance of the Business Management System which sets environmental objectives that are appropriate to the nature, scale and legal requirement of the organisation's hazards, risks based aspect and impacts.
- Environmental procedures, processes and responsibilities laid out within the Business Management System.
- Conducting risk based aspects and impact analysis and the maintenance of a legal register.
- Provide information, instruction, training and supervision to enable all employees to carry out their duties to the environment, safely, and as required within the process and procedures out lined in the BMS.
- A process of continual improvement in management and operational performance.
- Continued emission reduction through the Sustainable Travel Policy

This policy shall be:

- Communicated to all persons working for or on behalf of the organisation to ensure that they are made aware of their obligations.
- Made available to the public and interested parties on request and is published on the company website.
- Reviewed periodically to ensure that it remains relevant to the objectives of the organisation.

Signed:

Date: 6th November 2020

Danny Macfarlane
Managing Director
